

Year 5 & 6 thoughts about prayer

I feel that I can open my heart to God when praying and that he will protect us from evil and help us when we need it the most and makes us carry on in life. When there are bad times, he is here.

I feel like when I pray, I am blessing God for making me and this world and it makes me feel like God is always there for us and will ever leave our side. And it makes me feel like I can talk to him if I need to.

You can feel close to him and you feel calm and you start wanting to talk to him more.

I feel prayer is good to destress and to relax and open your heart and ask God for any ideas to help you through life and complete it.

Prayer makes me feel joyful and happy but I like doing it at home more than school because you do it with your family because it says in the Bible that if there is more than one in prayer then it is more holy. During Shabbat, we light candles and say a prayer and that makes me feel joyful and happy.

I like to pray because it clears my mind and if I am stressed then God is always there and I can pray whenever and wherever I like to.

I think praying is a moment made to be useful and have a small break when having a tough day at work or school or anywhere. Praying helps you get closer to God and to tell him your problems.

I love to pray because I can tell God to tell people that I love them and I miss them and to talk to God if I'm sad or happy about something because it helps me to express my feelings to God when I'm alone and he can help me with it.

When you pray, your heart opens up and lets God in and then he can be there for you when you're worried. I really like to pray at this school because I'm with my friends and when I realise that it opened up my mind so that I can always speak to God at the worst times and the best times.

I pray because I thank God for this wonderful earth and I also pray if I am worried or I need something like help with something. I also pray for what I am grateful for.

When I pray, I feel like I can talk freely to God about anything. I could thank him for the world he had created for me to live in. I could say sorry for something I feel bad about or I could ask him for help and courage when I need it. I feel calm when I am praying even if it's chaotic around me. I can think all about God quietly.

I feel like God is listening and I feel really safe and nothing bad is going to happen to me because God will protect me. And I also feel like when you are praying it's another chance to say sorry for maybe what you have done recently or in the past.

I like to pray because it feels that God is speaking to you. Also, you can pray to God for us to be safe or to be forgiven. It makes you feel happy because it's like you are in a whole new place where you can speak to God about your worries.

When I pray, I feel relaxed and peaceful when I think of what happened when God created the world, plants, animals and us humans.

Prayer is something you can do if you don't feel well or you are sad or lonely. If you had a fall out with a friend you can pray to God to help you get through the bad time.

Prayer is a peaceful, calm time to ask and thank you and pray to ask God to protect me and everyone else. I pray for comfort that God is always with me. Prayer helps me to relax after a long, hard day and it prepares me for the next day.

I think prayer can help us calm down and talk to God when we are mad. It also lets us communicate to God about bad things that are happening in the world and when we talk to God about them, we are asking him to stop that bad thing.

I like to pray because it makes me appreciate everything God has made possible for everyone and how he gives us a wonderful earth to live in and to explore.

I think praying is important for me because I can ask God for a second chance when I have done something wrong.

I like to pray because it is a quiet time and it is just you and God. It is also a time to reflect on your life and be grateful. Also, you think about those you are in need. I just stop and think.
